

## Continued solid performance for AXA Corporate Solutions in 2016

**AXA Corporate Solutions confirms its financial strength in 2016 with solid growth of its revenues by +3% to €2.3 billion\* and with robust underlying earnings at €122 million.**

AXA Corporate Solutions ranks amongst the highest rated financial institutions, both in Europe and worldwide. In 2016, Fitch reconfirmed AXA Group's and AXA Corporate Solutions' financial strength awarding AA- rating. In October 2016, Standard & Poor's upgraded the rating of AXA Group and the core operating subsidiaries to AA- from A+ with a stable outlook.

AXA Corporate Solutions is AXA Group's company dedicated to providing risk management and insurance solutions to large cap corporate companies. Its 1 500 employees in 16 international offices serve Corporate clients, wherever they are in the world, offering protection, prevention, and innovative solutions and services.

In a fast-changing world with evolving client needs, AXA Corporate Solutions will continue to focus on being a true partner for its clients, accompanying them in their international development, aiding the anticipation and prevention of risk, and developing the best and most suitable risk transfer solutions and services.

In collaboration with other AXA entities, AXA Corporate Solutions will continue to offer clients access to the size, international expertise and strength of the AXA Group, to anticipate and be ready for any new and changing risk environment, benefiting from AXA Group's vast range of risk prevention, mitigation and protection capabilities.
